National Seminar

on

“Techno-Managerial Skills”
(A special emphasis for Undergraduate Pharmacy students)

1st March, 2013

at

School of Pharmaceutical Sciences, ASU
Plot No.23, Sector 32, Gurgaon

In collaboration with:

Martin & Harris Pvt. Ltd.
Walter Bushnell Pvt. Ltd.
ASG Biochem Pvt. Ltd.
Objectives of the seminar

The national seminar on “Techno-Managerial Skills” is being organised to train the students about technical and managerial skills so that they get the best possible placements and show their best possible skills and talents for their organisation. The seminar will highlight the recent trends in recruitment, management, opportunities and challenges before the new pharma workforce. There will be series of lectures from eminent scientists from academia and industry of repute, especially on techno-managerial skills.

Scientific Poster Submission

Original research and/or review based scientific posters on recent advancements in the fields of Pharmaceutics, Pharmacokinetics, Pharmaceutical Chemistry, Pharmacognosy, Pharmacology, Pharmaceutical Biotechnology, Pharmaceutical education, marketing, etc.

The abstract should be of 150-200 words including the objective, hypothesis, material-methods and results of the study. The abstract should be submitted in MS-Word, Times New Roman, font size 12 and single line spacing. The title must be bold, mentioning the affiliations of the presenting authors and the co-authors. The abstract should be submitted before 20th February, 2013. The presenting author should register for the seminar.

The abstracts, in proper formats, may kindly be submitted to the “Organising Secretary” or the “Scientific Convener” before 20th Feb, 2013.

About Apeejay Stya University

ASU is India’s 1st Liberal Arts and Meta University focused on Research and Technology. It is a seat of global learning that offers rich opportunities for innovative teaching learning, and research across disciplines. It is a part of India’s leading education group with 45+ years of excellence in education, 29 educational institutions across the country, more than 85 courses to choose from, over 32000 students and 2200 teachers, 60,000 strong alumni network, across pre-nursery to doctoral level.

School of Pharmaceutical Sciences

The programmes of School of Pharmaceutical Sciences at ASU have been designed in collaboration with pharmaceutical organisations of repute. The newly launched R&D centre for pharmaceutical research will further ensure a holistic and experiential learning for students. The students at the School would be familiarised with the knowledge of formulation development from basic drug designing to final stages of clinical trials.

Highlights of School of Pharmaceutical Sciences

- Dedicated and research oriented faculty
- Advanced lab infrastructure and sophisticated instruments
- Centre for NDDS and formulation, development & analysis
- Research opportunities across all levels, including real-time industry projects
- Academic collaboration with reputed institutions
