

INTER COLLEGE FEST AT ASU

A three-day inter college festival — Elaan — dedicated to the holistic development of the students came to a close at Apeejay Stya University (ASU) campus.

Participants from 18 educational institutions across Delhi-NCR took part in the festival through different competitions and there were approximately 1000 entries. The entire

event was organised and managed by the students of ASU, in consultation with the faculty members.

On day-one, the focus was on athletics and sports. Day-two had two major events: Drones and cloud computing. There were 22 different segments on that day where more than 100 students exhibited their technology prowess.
